

Using GroupWise Wireless

Use GroupWise® 6 Wireless to access your GroupWise Mailbox with your WAP wireless phone. Once your system administrator installs GroupWise 6 Wireless functionality to your GroupWise WebAccess 5.5 Enhancement Pack or later system, you can read and compose mail, appointments, and tasks, view the address book, search for documents, and much more, all from the convenience of your wireless phone.

Connecting to GroupWise

- 1 Select Data Mode or Browser Mode on your phone.
- 2 Enter the following URL: `http://web_server_name/servlet/webacc`. You can get the name of your web server from your system administrator.

HINT: Follow the instructions in your phone's documentation to add this URL to your Favorites or Bookmarks so you don't have to type the URL every time you log in.

- 3 Type your User ID > press the left soft key to select OK.

Press the right soft key to change your keypad to the uppercase letters, lowercase letters, or symbols you need.

- 4 Type your User Password > press the left soft key to select OK.

Checking Your Mail

Troubleshooting

If you cannot connect to GroupWise, check to see if you can connect to other locations using your phone's Data Mode/Browser Mode:

- ♦ If you can connect to other locations, contact your GroupWise system administrator to see if the GroupWise WebAccess server is functioning properly.
- ♦ If you cannot connect to other locations, contact technical support for your phone to see if the phone is functioning properly.
